

*“A set of **organizing principles and practical applications** for the UN to work together and increase accountability.”*

## DELIVERING Together for Sustainable Development

The Post-2015 Agenda on Sustainable Development **call for a better integration of policies and more collaborative efforts to address complex development challenges.**

This demands the United Nations and partners to work more closely together at both local and global levels.

### Standard Operating Procedures

The Standard Operating Procedures provide an integrated package of support around the five Delivering as One pillars to enable UN Country Teams and governments to maximize the potential of the approach

#### ONE Programme

- Unified UN system under one nationally-owned development strategy
- UN Results Groups driving real-time monitoring and dynamic joint work plans

#### Common Budgetary Framework / ONE Fund

- All planned and costed UN programme activities presented in one place
- Coherent approach to joint resource mobilization

#### ONE Leader

- Strong support and mutual accountability for RCs and UNCTs to work towards common results
- Decentralized authority and enhanced coordination function of the RC

#### Operating as ONE

- System-wide Business Operations Strategy for cost-effective and high-quality common operational support
- Integrated Operational Support for better programme results

#### Communicating as ONE

- Joint Advocacy and positions consistently delivered by the RC and UNCT
- Improved quality of dialogue with host country governments through strategic joint communications

### Key Benefits of DELIVERING Together

#### FOR THE GOVERNMENT

- Strengthened leadership and alignment with national priorities
- Increased transparency and reduced transaction costs
- Better access to expertise from across the UN system, particularly on multi-dimensional issues

#### FOR INTERNATIONAL DEVELOPMENT PARTNERS

- Improved inclusiveness in the cooperation with the UN system
- Promotion of internationally agreed norms, values, and standards
- More effective sector coordination

#### FOR THE UNITED NATIONS

- Improved inclusiveness in the cooperation with the UN system
- Promotion of internationally agreed norms, values, and standards
- More effective sector coordination

#### FOR NATIONAL DEVELOPMENTS PARTNERS

- Strengthened leadership and alignment with national priorities
- Increased transparency and reduced transaction costs
- Better access to expertise from across the UN system, particularly on multi-dimensional issues
